Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 1 and 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Goldberg et al (US 6,573,997)

Goldberg shows a hybrid shearing and phase-shifting point diffraction interferometer comprising:

a mask structure (46) which is arranged on an object side, and

a grating structure (50) which is arranged on an image side,

the mask structure comprises one or more mask structure patterns with a periodicity in exactly one direction (46), and the grating structure to be arranged on the image side comprises one or more grating structure patterns (62, 64, 80, 96) with a periodicity in exactly two non-parallel directions or

wherein the mask structure comprises one or more mask structure patterns with a periodicity in exactly two non-parallel directions, and the grating structure comprises one or more grating structure patterns with a periodicity in exactly one direction.

With regards to the use of the words "grating" or "mask" it is merely a matter of nomenclature since the claimed structure is the same as taught by Goldberg. Furthermore, the

mask and the grating can be reversed in location since Goldberg teaches that reversing locations is functionally equivalent in column 5, lines 11-15.

Allowable Subject Matter

2. Claims 2-5 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter:
Claims 2-5 are allowable for reasons argued in Applicant's response of 9/18/06.

Response to Arguments

4. Applicant's arguments with respect to claims 1 and 6 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
